

A Test-before-Invest Acceleration Framework for Digital Maturing, Skills Development, and Public Innovation Procurement

Iraklis Varlamis

GRNET, WP3 Leader

Objectives and services

Achievements so far

- digiGOV InnoHUB has activated the Greek ecosystem of Universities, Research Centers, IT Companies and Public Administration
 - 16 partners
 - 52 companies have signed a contract with Innohub
 - 35 public organizations have signed an MoU
- Has supported the development of 2 sandboxes (IoT, Computer Vision) and more are ready to be deployed
- Has supported the training of a Greek LLM (Krikri) and a Greek text corpus (GlossAPI)
- Has demonstrated 6 pilot projects and more are under development
- Is designing several POCs with public administration
- Started a MiniDGA program and several targeted trainings

Forward looking

- digiGOV InnoHUB has activated the Greek network of Digital Transformation
- digiGOV InnoHUB has an extended portfolio of services that promote digital transformation and maturity
- has managed to establish a Community of Practice for AI and related technologies in Greece
- has become an excellent accelerator for preparing the ground for AI Factories
